

Press Release

Georg Störkle will take over the management of the advisory services at ACTANO

New tasks strategic consulting and implementation

Munich, May 2011: Under the guidance of the graduate physicist, qualified specialists will be able to ensure that companies using Actano's project management software RPLAN e3 achieve measurable effects in terms of time, quality, cost and product maturity. As a member of the management board of Actano, Georg Störkle previously held the position of facilitator between the strategic development of RPLAN e3 and tailoring the solution to the actual project.

Georg Störkle can refer to 15 years of consultancy and management experience in project management. During his 10 years with Actano, as a senior consultant, certified project manager and business executive, he was responsible for the implementation of RPLAN with automotive OEMs (including BMW, Daimler Cars and Trucks, VW) and automotive suppliers, as well as companies from the aerospace sector and machine and plant manufacture.

In his new role, Georg Störkle is now responsible for the seamless integration of RPLAN e3 into in-house and cross-company development processes, specific project set-ups, methodologies of project planning and project management and also existing IT environments. His responsibilities will also include evaluating user experience with regard to the on-going development of software functions.

ACTANO GMBH

Companies in the discrete manufacturing industry are professionalizing the development of complex products by deploying the RPLAN software and employing Actano's implementation consulting services. RPLAN integrates national and international suppliers in end-to-end value chains, thus implementing highly efficient product development processes. Currently, more than 100 high-profile companies with more than 100,000 users worldwide deploy RPLAN to master challenges such as globalization and heterogeneity, integration of non-industrial partners, and synchronization and interaction in dynamic processes.

Customers include Airbus, Allgaier Werke, Audi, BMW, Daimler, MTU Aero Engines, VW, and many more. ACTANO has entered into partnerships with leading solution providers and consultancies such as SAP, Siemens PLM, PTC, MHP, and Accenture. The company has its head office in Munich and subsidiaries in Stuttgart, Wolfsburg, and Detroit/USA.
